## **Press Release**

---

### **Price increase for Phenothiazine D Prills**

Effective July 1, 2008 for all deliveries or as contracts allow, AllessaChemie will implement a 10% price increase for Phenothiazine D Prills sold in the North American and Asian markets.

This price increase is necessary due to increasing labor, logistics, energy, packaging and raw material costs, plus the ongoing weakness of the US dollar.

## About AllessaChemie GmbH

AllessaChemie GmbH is a partner for the production of chemical intermediates and specialty chemicals. The company is headquartered in Frankfurt. AllessaChemie GmbH offers a comprehensive plant capacity. Depending on the product, production capacities up to several hundred tons per year are achieved. Thanks to its broad technology and equipment spectrum, AllessaChemie GmbH is in a position to develop complex, multi-stage syntheses – often exclusively produced for one customer. Moreover, AllessaChemie GmbH offers additional services such as drying, milling and mixing of products or analytics for research, development and quality assurance. The company is certified according to DIN ISO 9001 and 14001. The most important customers are the agricultural, pharmaceutical, pigment, dye and auxiliaries producers.
